1962

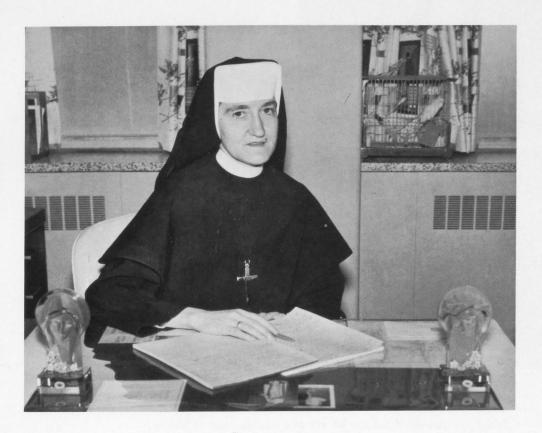

Dear Graduates:

Your past three years of study have been difficult and the successful completion of your training is indeed an accomplishment. It is with great pleasure, therefore, that I congratulate you on this happy occasion.

To become a graduate nurse, however, is not an end in itself but only the beginning. You will now be called upon to put into practice what you have learned and to accept responsibilities of your profession. How well you do these things will be the true measure of your success.

It is our hope that we have played our part in instilling in you the knowledge, faith and confidence to meet the challenges which lie ahead.

May God bless and guide you always.

Sister Ste. Helene de Rome, s.m. Superior/Administrator

Sister St. Odilow

DEAR GRADUATES:

Today, in Canada, I believe we are at a turning point of history.

With the launching of the Schools of Nursing Improvement Program, one cannot help but stop for a moment and ask WHY, - WHY, - WHY of our action which is in essence the answer to our philosophy of life, our philosophy of education.

One must answer -- introspection -- the WHY for the goal to be attained, the WHY for the path to be followed.

Being aware of this fact, I do not see anything more appropriate for your farewell souvenir than to give you the meaning of your ALMA MATER emblem as an urge to live the symbolism embodied in the Misericordia crest which is a constant reminder to the Sisters and Associates to practice kindness and understanding in their dealings with ailing bodies and souls.

If you sincerely attempt to make CHARITY a reality in your life, you will transmit to others the ideals of Nursing which your School has hoped to instill in each and every one of you -- the spirit of a true Misericordia Nurse.

With the help of Our Divine Lord and with the protection of Our Blessed Lady, you will surely be led toward success and happiness which is my earnest desire for your future endeavours.

CONGRATULATIONS!

BEST WISHES!

Your Director, Sister St. Odilon, s.m.

MISERICORDIA GENERAL HOSPITAL

WINNIPEG, MANITOBA

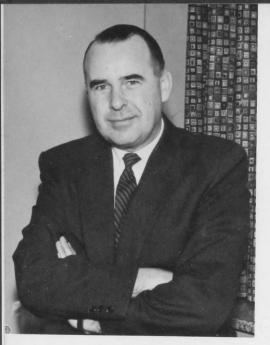

THE MEANING OF THE HOSPITAL EMBLEM IS THE

POWER

BEHIND ALL THE ACTIVITIES OF THE SISTERS OF MISERICORDE

INTERPRETATION

The Three Roses denote the love which goes with charity in the work of the Sisters of Misericorde. The part on the left side is of Azure colour meaning "nobility". The letter "M" enriched in gold speaks of the maternal protection of Mary, it is also the initial letter of all the Hospitals conducted by the Sisters. The right side of the crest is silver colour with the broken reed signifying the poor destitutes finding back their innocence in the midst of chastity which the silver colour represents. Oak branches are the emblem of courage and strength of the Christian soul. The sentence, "Derelictis Misericordia" means "Mercy to the fallen soul" and is the Sisters' motto.

Dr. J. Scatliff

Dear Graduates:

My best congratulations to each one of you in the graduating class of 1962 for your patience and persistence in reaching your graduation!

It is well known that only very special people can fit themselves adaquately for this vocation. Knowledge of the necessary skills is one matter, their proper application is another, for herein lies an art which demands a very deep understanding of human behaviour, especially at times when stress and illness prevail. By striving for perfection, you will live up to the fine reputation already acknowledged for the Misericoria Nurse.

God Bless you!

Sincerely,
John N.R. Scatliff, M.B. B.S. D.P.H.
Medical Director.

Dr. A. G. Rogers

Dear Graduates:

It is a great pleasure to have the opportunity of congratulating the 1962 graduating class, on behalf of the medical staff of the Misericordia General Hospital.

This is the end of one chapter in your lives. As soon as the next page is turned, a new chapter begins. The old chapter had a sense of unity. There was a goal to reach, an ambition to achieve. The fact of graduation has proved that this chapter, for each one of you, was well written with a happy ending. Before this chapter could be completed, you each had to develop good habits. You had to learn to study, to pay attention to detail, to maintain your sympathy even when tired and fatigued. You had to keep your sense of humour, despite the tragic scenes you witnessed. You had to keep your desire to heal and mend. Above all, you had to become trained nurses. This you have done successfully and well.

Now the new chapter begins. Fortunately, none of us can predict the end of the chapters yet to be. Some of you will undoubtedly further your nursing education. Some will become teachers. A few may go into medicine. Many of you will become the backbone of the nursing care on the wards of this and other hospitals. Many of you will marry. Even then, both in the home and in the hospital, your nursing experience will prove invaluable. Whatever the future may hold, whatever the chapter may contain, the habits of the last three years should serve you well.

We physicians in this hospital, will miss those who leave these surroundings. We shall appreciate the continued privilege of working with those who remain in the Misericordia. Wherever you are, Our Congratulations and Best Wishes go with you on your graduation.

A.G. Rogers, M.D. President of Attending Staff.

Student Council

At last my "Swan Song", my final opportunity to give a message and then to take my place with all the Misericordia past presidents!

At this time I wish to thank the Student Nurse's Association as a whole for the honour and privilege of being your president and for the support that you have given me the past year. For any glory or honour which I have enjoyed, the real credit goes to my hard working and willing council members. To these girls go my sincere thanks for their whole-hearted co-operation during my term of office.

Congratulations, fellow graduates! Use your past three years as stepping-stones to greater achievement. Go forth, ready at all times to give of yourselves, hold high the lamp, and you will receive rewards from life.

On behalf of the graduating class I would like to wish our fellow students every success in the future. With God's Grace, may you keep high the ideals and standards of Les Soeurs de Misericorde.

Margaret-Ann Small, President.

Dear Graduates:

We of Semper Fidelis Staff hope that in future years this issue of the "Semper Fidelis" will be a cherished momento of happy years at Misericorida -- a reminder of favorite classmates and of wonderful hours in and outside the hospital.

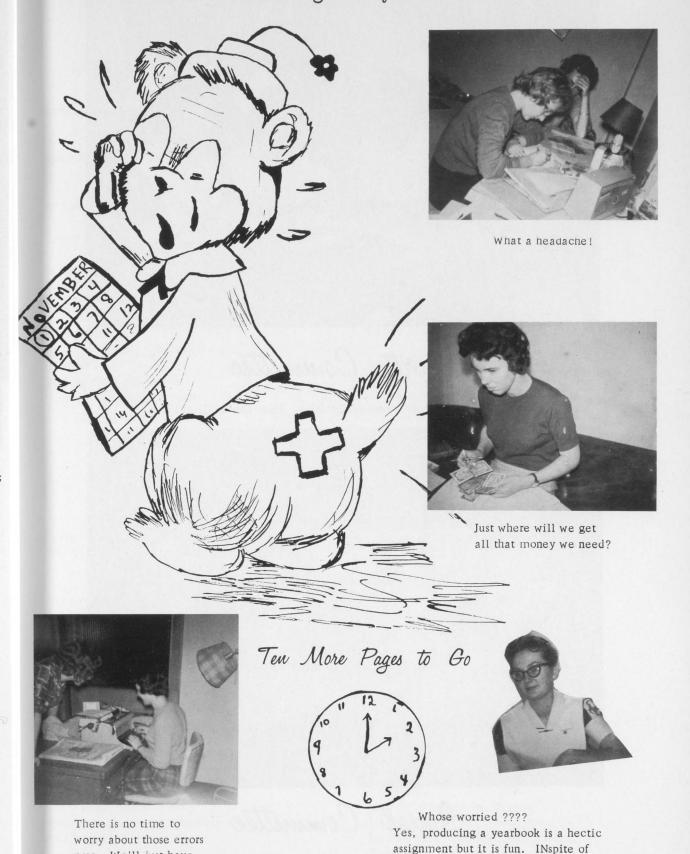

You have been here for three years. Now most of you will leave and step out to face a future that is very uncertain. In whatever degree of success or failure you may find yourselves in years to come, if a glance at these pages will lighten our labours, if only for a single moment - we deem our yearbook worthwhile.

Each of the students here at M.G.H. had a part in making this year what it is. Each event will be remembered; some were happy occasions, and others sad, but they made a part of our nursing education a time never to be forgotten.

In closing we would like to express our thanks to all those who have given their time to produce this yearbook.

"Sodality of Our Lady of Perpetual Help"

The Sodality of Our Lady is the organization in our School of Nursing by which our Catholic students attain unity.

Sodalists strive to maintain high ethical standards in daily living, in our studies and in our nursing profession. Our means are right in the Chapel-daily mass and Holy Communion.

"To Jesus through Mary" is the Sodality's motto. In this ejaculation, the aim; "May my life be lived in the supernatural, full of power for good, and strong in its purpose of sanctity."

I am a Sodalist

because

Of God's desire

To be close to him like Mary
With her ardent love like fire.

I am a Sodalist

because

Of Mary's care
To help the sinful world
Whose needs I have to share.

I am a Sodalist

because

I hope to be still there When Mary calls on me To follow her.

I am a Sodalist

because

I yearn to love as Mary did Her Son - our Saviour Our hope our love.

"Nurse's Christian Fellowship"

As our aim we have chosen "To know Christ and to make Him known!" Daily we attend to the physical needs of those about us, but we cannot neglect the needs of the Spirit. Henry Barton's poem "Pass It On" enables us to fullfill these needs.

Pass It On

Have you had a kindness shown?
Pass It On;
T'was not meant for thee alone,
Pass It On;
Let it travel down the year,
Let it wipe another's tears,
Till in heav'n the deed appears,
Pass It On!

Did you hear the loving word?

Pass It On,

Like the singing of a bird;

Pass It On,

Let it cheer another's woe,

You have reap'd what others sow,

Pass It On!

Have you found the heav'nly light?
Pass It On;
Souls are grasping in the night,
Day-light gone;
Hold the lighted lamp on high.
Be a star in someone's sky,
He may live who else would die,
Pass It On!

Be not selfish in your greed,
Pass It On,
Look upon the brothers need,
Pass It On,
Live for self, you live in vain;
Live for Christ, you'll live again;
Live for Him, With Him you'll reign,
Pass It On!

A Nurse's Prayer

O Word of God. I dedicate for Thine Own Sake, Myself to Thee, for this great work I undertake. Take Thou my eyes, and teach me how to see The clearest way to nurse the sick for Thee. My hands-quard them, and show how to probe How kind and gentle is a nurse's love! Take Thou my feet, give swiftness to their tread, In answering every call from the poor sufferer's bed. Touch Thou my lips, guard Thou my tongue, Uttering only words of kindness to each one. D Lord. I pray that, coming face to face with death, I may have faith and hope with each one's dying breath. And, when I am a night nurse, please to guide My actions. Be near my patients and watch by my side. D Lord, I ask Thee, hear me while I pray: Be in me, through me, all the way.

Social Highlights of the '61-'62 Term

Welcome Class 64-B.

Entertainment at the "Tea"

Annie Get Your Bamboo Dance
Gun

Weiner Roast

On Monday, August 28, 1961, the Misericordia School of Nursing commenced the '61-'62 term with a distinctive change. In its hallways milled over 80 newcomers, including two boys. These bewildered but eager Preclinicals represented the two classes that were combined for the first time this year, meaning that February classes were no more to be.

In the afternoon they were welcomed by their "Big Sisters", Classes 63B and 64A with the traditional "Welcome Tea".

Much as we disliked it, we were obliged to settle back into a routine of lectures, studies, no late leaves every night, etc. for the next week or so. Then, on Wednesday, October 6, we got our fill of hot dogs. That evening the new class was welcomed to the school with a giant weiner roast.

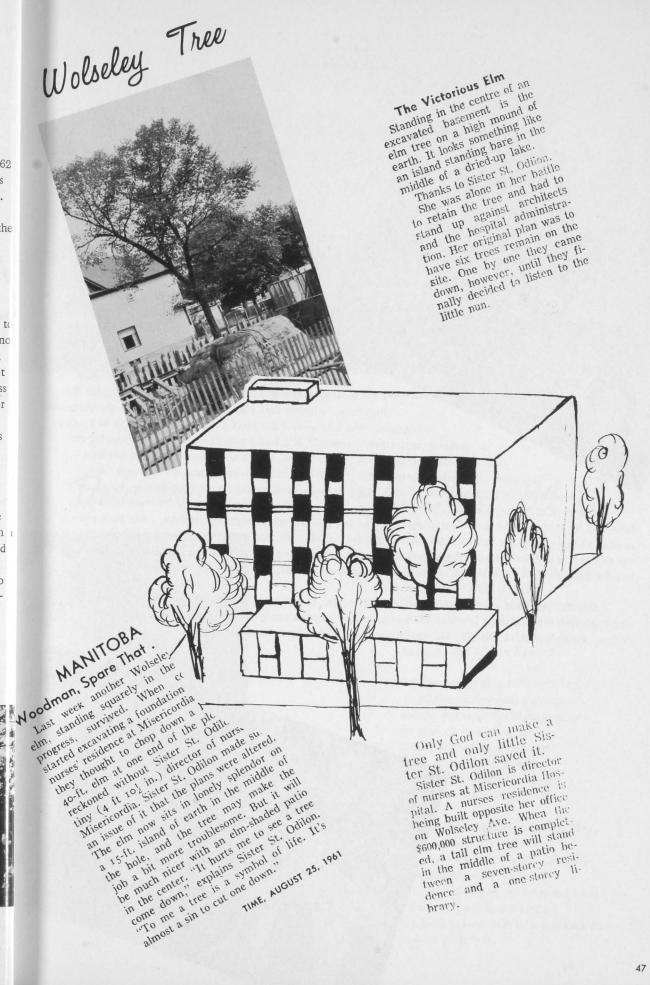

Over 200 girls sardine-packed themselves into three chartered Theissen buses and headed for the Assiniboia Downs Stables. Skits and a sing-song around the bonfire highlighted the evening.

Much to our delight, we learned that one of the bus drivers was a talented vocalist. With unanimous vote and much persuasion, he agreed to lead us in the sing-song.

The evening ended, it seemed, much too soon. Everyone, tired, hoarse but content, exclaimed, "Gee, that was fun."

MISSING: One lost probie on October 31. Afraid of witches? NO!! Just afraid of seniors. Hard to believe anyone could be afraid of such loveable lil' ol' people. After all, all this student had to do was: gently arouse her dear "Big Sister" singing "I am a lowly probie, I love you senior dear", after which she willingly tidied sis's room, polished her shoes, unwrinkled her bed, and did everything in her power to please her boss for the day. She merrily chanted her song for each of the seniors at their feet at least two or three times (ONLY about one hundred times during the day). Her hair was beautifully arranged in pigtails with her inside out skirt stylishly pulled over her best long legged pj's. After, for the

first time, wishing that classes never would end, she staggered

out again. She was served the most delectable supper (in bed pans,

urinals, and other borrowed? hospital equipment). Being so popular she

warbled the most delightful tunes for her senior audience. Showing her best manners she served them all they wished. Dressed warmly and attractively, she wandered out into the cool, dark night to fetch some rather uncommon articles --- men's shorts, something false but not TEETH, etc., etc., Upon arriving back she was whirled down a long hall to Morgin's Morgue. Unfortunately, she ran into his spider right in her face. She then proceeded to feel Harry the Stiff. Not enjoying the feel of his hair, his eyes, his ??? whatever you wish, she slopped bare footedly out through his blood and cremated remains up to the auditorium. After entertaining gleefully and being found guilty by Kangaroo Court, she just plain disappeared.

She was last seen going straight up in the direction of her hair, yelling, "Peoples of the Miseri, don't let them do this thing to me". If you have any information as to the whereabouts of this Probie, kindly return her so that she can make plans for her little sister next year.

"Reverently, I pledge myself before God and in the presence of this assembly....."

Dedication

".... that ye should follow his steps."

Class 64-B

I bathe the tired, patient sick
And leave the covers neat,
The while I think of One who washed
His loved disciples' feet.
How often when I bandage wounds
Have grateful tear drops started....
To think! I have a Saviour who
Binds up the broken hearted.

I pause by many a sufferer's bed To shake and smooth a pillow, (Remembering Him asleep on one In boat on tossing billow.)
I give a drink of water and (Almost too good to be!)
I hear my loving Lord remark, "You gave that drink to Me."

I make the meals for patients' fare.
I set out milk and bread...
(My Jesus spake the word, and lo!
The multitudes were fed.)
Oh, sometimes in my crowded ward
I think and catch my breath:
My Lord healed sick folk just like these
In busy Nazareth.

The Rose Ball

The student nurses held their annual "Rose Ball" on November 16 at the Club Copacabana. It was a great success, with approximately 430 people in attendance.

Prior to the dance, a reception was held, at which time the patrons were introduced to the princesses and their escorts. The following patrons were present at the reception.

His Worship Mayor and Mrs. S. Juba, Dr. and Mrs. A. Natsuk, Dr. and Mrs. A. Rogers, Dr. and Mrs. F. J. Coodin, Dr. and Mrs. James McGoey, Mr. and Mrs. Z. Hladki.

The princesses: Miss Alice Fingas, Class 62B; Miss Betty Ushey, Class 62B; Miss Marilyn Cooper, Class 63A; Miss Lorraine Cooksley, Class 63B; Miss Marilyn King, Class 63A; Miss Lynn Trimbath, Class 64B.

Receiving the guests were: Mr. and Mrs. R. Kelly, Miss Anita Grant, Miss Faye Ches-

Receiving the guests at the dance were: Miss M. Small, president of student body; Mr. and Mrs. Gardiner (Mrs. Gardiner representing the Misericordia Alumnae); Miss Martha Riley, Miss Jean Lowe, Mr. and Mrs. McSheffrey.

The highlight of the evening was the crowning of this year's Rose Queen—Miss Betty Ushey of Class 62B. Mayor Juba crowned Miss Ushey, and the presentation bouquet was given by Mrs. Juba; the Misericordia bracelet by Miss Small. Congratulations, Betty!

Mother St. Odilou's

Feast Day

To help her celebrate her Feast Day, "A Tea" was held in honor of the Nursing Director, on Friday, December 8, in the auditorium. All the members of the hospital took advantage of the occasion to express their appreciation to Mother St. Odilon.

Yuletide Festivities

In the true Spirit of Christmas, the Student Nurses' Choir brought good cheer to those less fortunate.

Under the able direction of Mrs. Gebhard, the group carolled at the St. Boniface Old Folk's Home on Sunday afternoon, January 10. The girl's carolled again on the eleventh in the hallways of their own hospital, The Misericordia.

Christmas Concert 1961

The 1961 Christmas Concert, held on Wednesday, December 13, with Mr. Z. Hladki as M.C., and welcomed Mr. Pozyniak, was very well received.

Starting the program in the traditional way, was the Nativity Scene by the Student Nurses, with Mrs. O. Gebhard and Mr. V. Morrone as soloists.

Finally, came good ole St. Nicholas jingling and ho ho-ing down the aisle with his reindeer and his elf.

After Sr. Superior, introduced by Dr. Scatliff, had expressed her thanks to all those who participated in the production of the concert, both on and off stage, and to the excellent turnout of the audience, everyone adjourned to the decorated cafeteria for refreshments and a gift from Santa.

The Manitoba Student Nurses' Association was organized for the purpose of uniting all the students of Manitoba's seven schools of nursing into one boy - a body with common interests, desires, hopes and goals.

The schools maintain contact with each other chiefly through social functions. This term's first activity consisted of a giant Halloween Party at the General Hospital auditorium. On the night of the masquerade, October 31, all the Preclinicals were welcomed to the organization.

During the Yuletide season, the girls joined singing forces and carolled at the King Edward and Deer Lodge Hospitals.

Masquerade

Inspite of the fact that the thermometer registered twenty some odd degrees below zero, the M.S.N.A. organized a skating party for January. Quite a number of girls turned out in their skates, scarves and "woolies." This time the St. Boniface students acted as hostesses.

Highlighting the year was the annual "Winter Whirl," - the Valentine formal. This year it was held on the 14th of February at the Blue Room in the General Hospital School of Nursing Residence.

Misericordia was proud to have Eva Lachance as their candidate for Valentine Oueen.

As City Hydro looks back on its first fifty years of operation, one of the Utility's proudest achievements is the fact that it is still charging basically the same rates for electricity as it did when the first bill was sent out half a century ago. In addition, the low electric rates in Winnipeg compared to other large Canadian cities, undoubtedly have saved citizens untold millions of dollars.

SLIGHT MIXUP

A very dedicated and laconic skin specialist removed a mole from the face of a middle-aged spinster. When she returned for a checkup, the doctor gazed at her with earnest eyes and said, briefly, "Begnign." Instantly, the spinster bounced out of her chair and threw her arms around his neck. Only with difficulty could the doctor disengage himself.

"Now, madam," he protested, then, "there's no occasion for such a demonstration. I merely stated that the nevus proved to be begnign."

"Og, gee," the lady exclaimed disappointedly, "I thought you said "Be mine".

ON THE FAIRWAY

Smithers and another club member were playing a round of golf. Just as Smithers was about to drive the ball down the fairway his companion took a flask from his pocket. "Here", he said, "take a slug of this."

Smithers shook his head, "No thanks," he said, "I never drink while driving."

VARICOSE SOCIETY DANCE A REAL SUCCESS

"The Red Drop Hop," sponsored by the Campus Varicose Society in connection with their annual blood-letting drive, was quite a success.

Great Hall was overflowing last night as couples danced to the liquid music of Les Anemic and his Pale Four. The dancers seemed to particularly enjoy "The Transfusion Tango" and "The Jugular Jump." Lovely redheaded Aorta, vocalist with the band, gave a thumping rendition of "Hemophiliac Blues" which raised everyone's blood pressure.

The decorations were certainly clever. Suspended from the ceiling was a huge heart which beat convincingly 70 times a minute. From the heart were suspended many red streamers which were supposed to represent arteries and capillaries. The effect was one of intense realism unless of course one has never danced in this vein.

Even the refreshments were connected with the theme of the dance. A corps of nurses served intravenously from the beautifully decorated tables arranged artistically around the floor. Blood flowed like water. Miss Leech, head nurse, poured.

Highlight of the evening was the entertaining mixer, "Find Your Type". The game is a simple one, each person is supplied with a small knife or razor blade, and a vial. Into this vial the player bleeds, then runs around trying to find someone with the same kind of blood. Many lasting R. H. friendships were formed. One of the two survivors of the game was heard to remark, "This is lots more fun than Russian Roulette."

The Varicose Society extends heartfelt thanks to the Undertakers League for mopping up so thoroughly after the dance.

Then there was the nurse who was nicknamed appendix all the doctors wanted to take her out.

OR

The doctor who knew his patient couldn't afford an operation, so he retouched his x-rays.

"It would be interesting, Members of the Graduating Class, to cast your horoscopes...

"YOU will be better women for the life which you have led here. But what I mean by 'better women' is that the eyes of your souls have been opened, the range of your sympathies has been widened, and your characters have been moulded by the events in which you have been participators during the past years.

"Practically there should be for each of you a busy, useful, and happy life; more you cannot expect; a greater blessing the world cannot bestow. Busy you will certainly be, as the demand is great, both in private and public, for women with your training. Useful your lives must be, as you will care for those who cannot care for themselves, and who need about them, in the day of tribulation, gentle hands and tender hearts. And happy lives shall be yours, because busy and useful; having been initiated into the great secret — that happiness lies in the absorption in some vocation which satisfies the soul; that we are here to add what we can to, not to get what we can from, life."
